

Week 28

Mr. P and the Geometry Book

Level 1

Please only start working on these exercises after we have had class on Wednesday!

1. Make sure **you have read chapters #4-5** before you meet in your group (*Stammgruppe!*) and complete the tasks below.

Remember to keep all your discussions in English!

2. Sum up what happens in the chapters and why. (Take turns!) 

3. Talk about what you found surprising/sad/funny/interesting/unexpected about these chapters. Choose a short passage which illustrates this impression and read it out loud to your group. 

4. Can you understand why the narrator's family react to his suspension in this way? Do you agree with their reactions? Discuss. 

5. Who apologizes to whom and for what in chapter 5? 

6. Create a mind-map about one of these characters and add all the information we have found out so far: 

- Rowdy
- Junior's parents
- Junior's sister Mary

Put it into your folder.

7. As a group, decide on 10-15 important new words in the chapters. Write them down (including their translations!) and send them to hahn@hsgms.de.  (I will collect them and feature them in next week's plan.)

Level 2

6. Remember the Indian proverbs from this week's class? Find another one on <https://graciousquotes.com/indian-proverbs/> (or another website) that you like and **write a short comment (~ 100 words)** about your favourite and, if you want, connect it to an event from your life.

7. „*We Indians really should be better liars, considering how often we've been lied to.*“ (p. 13)
Do some research on the internet and explain this quote.
