Your family is making plans for next year's holidays. Your parents have asked you and your friend to think about where you want to go, what you want to do there and how you want to get there.

Look at the role cards and talk to your friend. Think of other reasons that can help your partner to agree with your ideas.

Partner A

Discuss where you want to go and what you want to do there.

You don't want to fly, but want to go by car or train or bike.

Say why you don't want to fly (too expensive / too much pollution, ...).

Say that you can see interesting/funny/... things on your way.

Partner B

Discuss where you want to go and what you want to do there.

You want to fly.

Say why you want to fly (fast/far away/...).

Say why you don't want to go by car, train or bike (takes too long / can't go to all the interesting places; by bike – can't take many things with you ...).
